

## **NEW GENERATION**

It has temperature controllers with PID parameters adjusted according to the characteristics of the calibrator throughout all its working range.

The Portable Dual Temperature Sensors Calibrator, **SMART LHT FULL CALIBRATOR**, is simply the best technology solution for temperature calibrations ranging from 50°C below ambient temperature to 1200°C. It is a homogeneous and stable source of heat, where through an equalizer block, several sensors can be inserted for the comparison calibration process.

- It has a 4-channel selector switch, for reading of the sensors in calibration, identified by a tag of up to 16 characters.
- The Standard can be internal or external or a Probe type external standard that eliminates the need to correct the error in the standard reading.
- The calibration routine can be automated between channels, with the results being accessible and stored on the instrument display itself.
- Switch Test function for temperature.
- Built-in help with instructions for the functions and settings.

## PACKAGE CONTENTS

An ECIL SMART LHT FULL Calibrator
One standard insert for each block
An insert puller
A power cable
A carrying bag plus accessories

Instructions manual in English RBC calibration certificate

## **OPTIONALS**

110Vac power supply Inserts with custom drilling Standard sensors with calibration certificate RBC types: PT-100 150/250 PRT and "Type R" Thermocouple

Container for stirred liquid (low temperature side)
Blackbody targets (low and high temperature sides)

## **\*\*TECHNICAL SPECIFICATIONS**

Range	50° below amb. temp. at 140°C
Absolute Stability	0.01°C (liquid container), 0.02°C (dry block)
Temp Uniformity.	0.02°C (liquid container), 0.05°C (dry block)
Controller Resolution	0.01°C
Calibration Volume	35mm diameter by 160mm immersion
Insert Holes	2 x 4.5mm / 2 x 6.4mm / 1 x 8.0mm / 1 x 9.5mm
D	15000 t- 100000

Range	150°C to 1200°C
Absolute Stability	±0,2°C
Controller Resolution	0,1°C
Calibration Volume	35mm in diameter by 130mm of immersion
Insert Dimensions	4 x 6.35mm / 1 x 8mm / 1 x 9.5mm

Technical Unit	°C / °F
Dimensions	Height 300mm / Width 510mm / Depth 170mm
Weight	22 kg
Power Supply	200 to 240Vac
Warranty	12 months
